

Student Name: Shubham Jain	Student Number: A00258743
Subject: Agile Methodologies	Semester Number: II
Student Signature:	Week Number: 10

New Knowledge/Skills acquired	None
Existing Knowledge/Skills employed and improved	Blackbox and white box testing techniques. Application of test driven development. Also knowledge of itext library and sql to retrieve data and print to pdf
Context	I was allotted 2 user stories to work on for 2 weeks. I reused a function which was already created to print delivery docket.
My role and responsibilities	<ul style="list-style-type: none"> • I was responsible to work on storemanager panel's delivery docket. • Follow test driven development to achieve 100% code, branch coverage for my functions. • Download delivery docket should contain name contact number of delivery person and details of product for delivery. Also should be categorized to delivered and not delivered publications.
Gaps in my learning	I think I am now capable to write productive code using tdd without any problems. I don't see any gaps in my learning this week.
Development as Software Engineer	We work in a timely manner, update progress on easy backlog, have a definition of done which I think brings out the software. Engineer within us.
Which interactions did I value	We decided to work more hours this week for some members so that we could finish all the user stories and work on testing the entire product code in the final week

Task	Expected Time	Actual Time
delivery docket	1.5	1
Testing and coverage previous functionalities	2.5	1
Research	1	1
