

Student Name: Shubham Jain	Student Number: A00258743
Subject: Agile Methodologies	Semester Number: II
Student Signature:	Week Number: 8

New Knowledge/Skills acquired	None
Existing Knowledge/Skills employed and improved	Blackbox and white box testing techniques. Application of test driven development.
Context	I was allotted 3 user stories to work on. dependent so I tried to make a common reusable function to fetch delivery docket which will be used to print data for delivery boy and update delivery status.
My role and responsibilities	<ul style="list-style-type: none"> I was responsible to work on delivery panel's update delivery docket, download delivery docket. Follow test driven development to achieve 100% code, branch coverage.
Gaps in my learning	I think I can improve in predicting exact test cases before writing product code
Development as Software Engineer	We work in a timely manner, update progress on easy backlog, have a definition of done which I brings out the software.
Which interactions did I value	While working on new requirements other team members talked about changing database tables which was a task I was responsible for, so after explaining them how to use the database tables to fulfil requirements which proved my planning was right was the interaction I valued.

Task	Expected Time	Actual Time
View delivery docket	1	1
Testing and coverage	2	2
Research	1	2
